ONB-01 Before You Arrive

Document ID	ONB-01	**Version**	2.0
Effective date	2026-06-01	**Status**	Current
Owner	Human Resources (HR Manager)	**Applies to**	All new hires, before the start date

1. Purpose

This procedure explains what we need from you before your first day, and what we do for you in return. Almost everything that goes wrong in week one (no laptop, no site pass, a late first salary) goes back to a document that arrived late. Which documents you send depends on your **employee type**: Overseas hire, Resident hire or Qatari national. Your type is shown in your HR record and in your welcome email.

2. Timeline

After you accept the offer, HR sends you the contract and the document list. We aim for these dates, counted in working days (Sunday to Thursday) before your start date:

	Sign the contract	Return your documents
Overseas hire	15 working days before start	12 working days before start
Resident hire	8 working days before start	5 working days before start
Qatari national	8 working days before start	5 working days before start

Overseas hires have longer deadlines because our PRO (Public Relations Officer, the person who handles government paperwork) needs the documents before the pre-arrival visa paperwork can be prepared. This is our own planning target; the time government departments take is outside our control and PRO will keep you informed.

3. Documents for everybody

- Employment contract, signed on every page (HR sends it by email; you may scan the signed copy).
- A recent passport-size photograph on a plain background, as a digital file.
- Copy of your highest educational certificate, plus any professional certificate named in your job description.
- Emergency contact: name, relationship and a phone number that works in Qatar or abroad.
- Signed Personal Data Notice, which says how we store and use your personal data (HR and PRO, nobody else, for onboarding and employment).

4. Documents that depend on your employee type

Employee type	Additional documents
Overseas hire	A clear, full-colour scan of the passport pages with your photo and signature (unreadable scans are the commonest reason PRO cannot start). Your arrival plans: HR books your flight and the 14 nights of temporary accommodation. For degree or other certificates, PRO tells you whether originals or certified copies are needed, because PRO confirms the current official requirement with the authorities.

Resident hire	Copy of your current QID (Qatar ID card), both sides. Details of your current residence permit and of your present employer or sponsor, so that PRO can see what is needed to move you to Al Dana; PRO confirms the current official requirement and tells you if a release document from your previous employer is needed. IBAN (International Bank Account Number) of your existing Qatar bank account, if you want to be paid into it.
Qatari national	Copy of your QID, both sides, and your IBAN. You do not need visa or residence documents.

5. What we do for you

- IT creates your account and email address one working day before your start (ONB-05). IT needs HR to confirm the contract is signed first, so the contract date matters.
- HR emails your first-day plan about three working days before your start: where to go, who to ask for, what to bring.
- **If you will work at Mesaieed Site or Ras Laffan Site**, HR also sends a site access request to the Site Administration Office once your documents are complete. Without it the site gate will not let you in on day one.
- Overseas hires: airport pick-up, temporary accommodation and the pre-arrival paperwork (task `VISA_PROCESSING` in your onboarding list).

6. If something is missing

HR reminds you twice. If documents are still incomplete five working days before the start date, HR tells your manager and may propose a later start date; the decision is the manager's and HR's, never an automatic one. If you cannot get a document in time, say so early and we will look for another way.
