ONB-06 HSE Induction

Document ID	ONB-06	**Version**	2.0
Effective date	2026-05-01	**Status**	Current
Owner	Health, Safety & Environment (Head of HSE)	**Applies to**	Every new hire. Content and deadline depend on where you work

1. Why this is mandatory

HSE stands for Health, Safety & Environment. The induction is how we tell you the site rules, the emergency arrangements and your right to stop an unsafe job. It is not optional, it cannot be postponed because of workload, and it is recorded in PeopleHub as the task `HSE_INDUCTION`.

2. Two versions: site and office

	Site-based staff (Mesaieed Site, Ras Laffan Site)	Office-based staff (Doha HQ)
Format	Full induction: about 4 hours in the site HSE training room plus a 2-hour supervised walk of the site	Short induction: a 90-minute online module in LearnDesk plus a fire-evacuation walk with your floor warden
When	**On your first working day.** Starts at 07:00 after you report at 06:30	**Within your first five working days**
Access rule	**No access beyond the site office until the induction is signed off.** The ID card works as a site pass only after sign-off.	You may work normally at HQ while you complete it, but your first five days are the deadline.
Pass mark	80% on the short quiz at the end. If you do not pass, you retake it the same day with the HSE adviser.	

Office staff who will visit a site (engineers, sales, procurement, HR and so on) must complete the **full site induction** before their first site visit, even if they have already done the short online version. Ask the HSE desk to book it.

3. What the induction covers

- Site layout, gates, speed limits, muster points (the assembly areas) and the emergency alarm sounds.
- PPE (Personal Protective Equipment): what is required where, how it is issued and replaced.
- Permit to work: hot work, confined space, work at height, electrical isolation.
- Stop-work authority, and how to report incidents, near misses and unsafe conditions.
- Emergency numbers: **999** first for a life-threatening emergency, then the Al Dana 24-hour HSE hotline, extension 5000.

4. Records and sign-off

At the end you sign the induction form and receive an induction card (site staff) or a LearnDesk completion record (office staff). The HSE desk marks your task as done in PeopleHub. Your manager can see the status.

5. Contacts

HQ HSE induction desk: hse@aldana-group.example, extension 1300. Site HSE desks: Mesaieed 3500, Ras Laffan 4500. 24-hour HSE hotline: 5000.
